Placer County Transportation Planning Agency Executive Director Celia

McAdam

ROCKLIN – Reflecting its commitment to develop downtown Rocklin and help residents commute safely and efficiently to Sacramento and beyond, the City of Rocklin will host an official groundbreaking for its new train station. The Rocklin Train Station will be constructed upon the site of the original train station at a cost of \$1.9 million and will include a commercial office space for lease, lighted parking and a landscaped plaza area. This project is made possible by City redevelopment funds, support from the Placer County Transportation Planning Agency and the State of California.
